FULL PRICE LIST - January 2026

Note: The prices listed no longer include shipping! The USPS now charges shipping for packages by ZIP code - those further away are charged more! I will need to calculate and quote a total cost individually by ZIP code.

REPAIR, or replacement with similar trade-in:
 All parts are USED; boards traded in must be undamaged.

<u>DESCRIPTION:</u>	<u>COSTS:</u>
Z-100 Motherboards (newer #85-2806-1 boards only)	\$ 75.00
All smaller circuit boards	\$ 35.00
Power Supply (either model)	\$ 70.00
Keyboard	\$ 40.00

~~~~~

- \* Sorry. I know the prices have gone up severely, but important parts are scarce.
- \* Other individual parts available.
- \* Payment by check, made out to 'Steven Vagts' - in advance of shipping.
- \* Check with me for individuals selling Z-100s & parts in your local area.
- prices probably lower, documentation may be available, and saves shipping costs.
- \* I have a few Zenith Monitors but shipping is discouraged; if interested, please call.

~~~~~  
 * * * * * **Z-100 PART BUYBACK OFFER** * * * * *

The basic, but most important, part assemblies for the standard Z-100 are becoming quite scarce, and my supply of spare parts has become depleted. Therefore, beginning in 2025, I instituted a new buy back program, where you can sell off your spare Z-100 parts & manuals. **I am offering to buy back the parts listed above for 50% of the sale price listed.** If you wish to sell a part, board, assembly or manual, please email me for a quote. The part need not necessarily work, but must be **undamaged** and capable of repair. This offer does NOT apply to software, ZROM versions, NVsRAM chips, SmartWatch, floppy or MFM hard drives, whole computers, CRT and yoke assemblies, ZDOS User Manuals, and Z-100 LifeLine CDs. You are responsible for shipping costs & insurance. Of course, **donations are always welcome.**

I have limited quantities of manuals, software, and numerous copies of older (circa 80-90s) books on various software applications and operating systems. Contact me if you need anything.
